- Recovery Coaches: Hypertherm HOPE Foundation is funding 2 projects: Community Based Recovery Coaching- Second Growth will supervise coaches, and coaches will be available to the community. Currently, there is a recovery coach survey. Please forward to people who have interest in being a coach (<http://bit.ly/1OJbuzb>). We have also have received funding for recovery coaches in the ER through Population Health at DHMC. Modeled after WISE/Advocates going to the ER. Coach will then follow and do direct services. These 2 projects were priorities of the coalition, thus the reason the COC planning group was cancelled. Hope is to kick off these programs Aug 1, 2016. Gives coaches the choice to be in ER or community.
